

Works for Business™

# Sprint® Magic Box

Boost your LTE data signal and speed at your business. It's the quick and easy solution that is free to use and gives your people and guests what they want – better indoor coverage – without any additional cost from Sprint.

## How it Works

- Amplifies the LTE data signal and accelerates the LTE speeds from the nearest Sprint tower
- Sits in the window and creates indoor coverage areas of 30,000 sq. ft. or more\*
- Could increase average download and upload speeds by more than 200%\*

## Benefits

No service costs to use\*\*

No tools required

No infrastructure impacts

Provide a seamless customer experience

Enjoy better device battery life

Extend in-building coverage to 30,000 sq. ft. or more

\*Signal and speeds based on optimal conditions for most Sprint devices  
\*\*Data will count against your monthly data limits and or overages, if any. See your plan for details.

# Sprint® Magic Box

## Works with most Sprint smartphones, tablets and mobile hotspots

- iPhone 6 and newer
- Samsung Galaxy S4 and newer
- HTC One M8 and newer
- Samsung Galaxy Tab 4 and newer
- iPad Air and newer
- Mobile Hotspots  
*Released in 2014 and later*

*Does not support devices from non-Sprint carriers  
Does not extend voice or Sprint Direct Connect coverage*

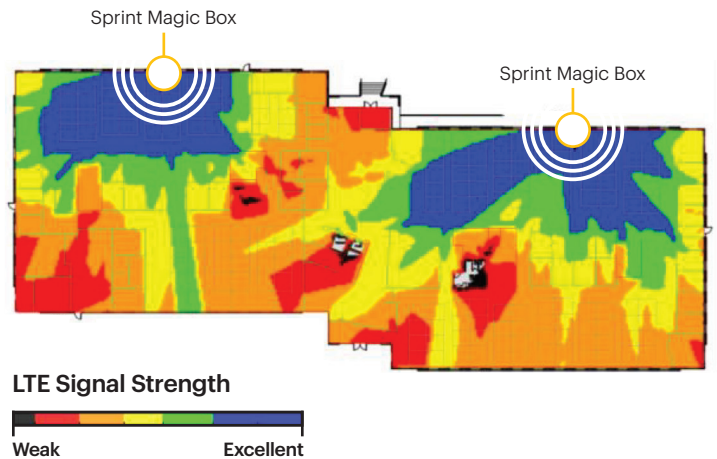

## Features

- 3GPP R10 LTE Advanced Technology
- No IT infrastructure required
- Easy activation and setup
- Supports up to 64 simultaneous users
- GPS enabled
- Seamless mobility

## Great for a variety of locations

- Office Buildings
- Universities
- Hospitals
- Hotels
- Public Venues
- Retail Stores

## See its impact in an office building

*For illustrative purposes only. Your building coverage may vary.*
